

TEXTURA

MULTILINGUAL DOCUMENTATION & LANGUAGE QA

English • Estonian • Russian

Documentation, localization and linguistic QA support for industrial and technology companies operating in Estonia.

Scalable EN-ET-RU workflows combining professional language expertise, AI-assisted production and final human quality control.

DOCUMENTATION

- Technical & product documentation
- Work instructions, SOPs & process documentation
- HSE, safety & compliance materials
- Employee training materials
- Legal & regulated documentation
- Software & equipment UI

LANGUAGE SERVICES

- EN → RU / ET → RU - professional translation, localization & QA
- EN ↔ ET - AI-assisted translation with professional human editing & QA
- EN / ET / RU - multilingual terminology, consistency & content QA
- Editing, proofreading & localization adaptation

WORKFLOW

- Professional human translation & editing
- AI-assisted workflows for high-volume content
- CAT-based production & terminology management
- Final human linguistic QA before delivery
- Project-based or ongoing external support
